GAS, WELDING, & SAFETY SOLUTIONS

Vol. 2, No. 3

April-September 2020

LINCOLN
ELECTRIC

Power MIG® 210MP® Multi-Process Welder

The Power MIG® 210 MP® Multi-Process Welder from Lincoln Electric has dual voltage inputs for 120V or 230V, and intuitive push-and-turn digital controls. The 40-lb. machine has a large color display, comes with a Magnum® PRO 175L Gun, 10 ft. (3.0 m), and can be used for MIG, Flux-cored, DC Stick and DC TIG processes.

Item No: K3963-1

\$1,499

(Industrial price: \$1,638)

Power MIG™ 140MP Multiprocess Welder

The Power MIG™ 140 MP Multiprocess Welder from Lincoln Electric has a simple two-knob operation for controlling wire feed speed and voltage, and a single button allows for easy process selection changes. This unit connects to 120V power, and can be used for MIG, TIG, stick and flux-cored welding.

Item No: LIN-K4498-1

\$799

(Industrial price: \$1,104)

Sneak peek: S.J. Smith Company, Inc., now carries RPB Safety products, including supplied air units, PAPRs, and welding, abrasive and painting protection equipment. Call us today!

Stronger cut ratings offer protection

These OilShield™ MIG gloves from John Tillman Co. feature ANSI A7 Cut Resistance as well as OilShield oil and liquid resistance, and are made of topgrain goatskin. Can be used for MIG and stick welding. Available in sizes M, L and XL. Additional sizes available on request.

**Item No: TIL-1340M; TIL-1340L;
TIL-1340XL** **\$21.50/pair**
(Industrial price: \$27/pair)

The premium 1357 MIG glove from John Tillman Co. has an ANSI A7 cut liner with a Dupont™ Kevlar® lining. Made of top grain and split cowhide, the 1357 offers a seamless forefinger, a flexible wing thumb and best tactile performance. Available in sizes S, M, L, XL and extended sizes.

Additional sizes available on request.
Item No: TIL-1357-M, TIL-1357-L, TIL-1357-XL

\$24/pair
(Industrial price: \$31.50/pair)

Flame Tech oxy-acetylene torch

The Flame Tech medium-duty, oxy-acetylene torch outfit for cutting and welding uses Victor® style tips, cuts up to 5 inches and welds up to 1.25-in. steel with optional larger tips. The kit includes medium duty acetylene and oxygen regulators, a medium duty handle and cutting attachment, cutting tip and welding nozzle.

Item No: FLA-FTVDMUK-20CS

\$165

(Industrial price: \$193)

Maxipress clamp

Adjustable capacity clamp

The Piher Maxipress clamp has a curved jaw head, piston system with fully protected threads, and a positioning system to prevent free fall of the moving jaw. A grooved fixed jaw provides optimum grip and the ergonomic handle is interchangeable and offers multiple positions.

Comes in 8-in. to 24-in. capacities.

Item Nos./Prices:

- NAS-60020 – 8-in. capacity: \$37.65** *(Ind. price: \$45.64)*
- NAS-60030 – 12-in. capacity: \$41.63** *(Ind. price: \$50.45)*
- NAS-60040 – 16-in. capacity: \$45.28** *(Ind. price: \$54.88)*
- NAS-60050 – 20-in. capacity: \$49.04** *(Ind. price: \$59.44)*
- NAS-60060 – 24-in. capacity: \$52.63** *(Ind. price: \$63.77)*

Markal Pro Holder

The Markal Starter Lead Pro Holder from LA-CO Industries has an extended, needle-nose tip for tight and hard-to-reach areas, and is made of heavy-duty metal construction for use in the toughest jobs. Measuring 6.125 in. in length, the pro holder works with all Markal® Pro lead refills.

Item No: NAS-96270

\$19.25

(Industrial price: \$27.30)

Markal Pro Holder lead refills

The Markal Starter Lead Pro Holder works with all Markal® Pro 2.8-mm diameter x 120-mm length refills, available in silver, red, graphite, yellow, and multi-color pack. Six refills per package.

\$11.60

(Ind. price: \$14.70)

Item No: NAS-96271 - Silver Streak

Item No: NAS-96272 - Red Riter

Item No: NAS-96273 - Graphite

Item No: NAS-96274 - Red

Item No: NAS-96275 - Yellow

Item No: NAS-96276 - Multi-Color

Powermax30® XP

Portable plasma cutting systems

The Powermax30® XP is a highly portable plasma cutting system that can handle a wide range of applications. A unique “two-in-one” design provides high-power capability for thick metal cutting, as well as the FineCut® consumables for detailed, thin metal cutting. The versatile 30-amp system uses air or nitrogen to cut electrically conductive metals, such as mild steel, stainless steel or aluminum.

Item No: HYP-088079

\$1,420

(Industrial price: \$1,690)

Powermax45 XP

One of the newest portable plasma systems, the Powermax45 XP plasma cutter delivers increased cut capacity – up to 16mm (5/8-in.) metal – as well as faster cut speeds and automatic gas adjustment for quick, simple set-up and operation. New Duramax® Lock torches support hand-held and mechanized cutting of a wider range of metal thicknesses, along with precision gouging such as spot weld removal, and marking capabilities.

Item No: HYP-088112

\$1,980

(Industrial price: \$2,340)

Grinder for any application

Angle Grinder 4-1/2" WP 1100-125, available with paddle switch or side power switch

Item No: MET-603614420

Item No: MET-603612420

These angle grinders from Metabo Corp. each feature an ergonomic handle and a tool-free adjustable guard. **Left**, the W 1100-125 angle grinder from Metabo Corp. has a lock-on, thumb activated side power switch, a tool-free adjustable guard and rear air intake for increased overload protection. **Right**, this WP 1100-125 angle grinder features a paddle, nonlocking switch for increased safety, as well as rear air intake for increased overload protection.

Either model: \$84.99
(Industrial price: \$154.97)

Metabo all-purpose drill driver kit

The 29-piece all-purpose driver driver kit from Metabo Corp. has bits made of chrome vanadium steel (S2 quality). A magnetic quick change adapter rounds out the kit. The kit also comes with a mini LED, 100-lumen flashlight with a range of 100 meters.

Item No: MET-626721000

\$20.73
(Industrial price: \$31.82)
