

## New Decatur location now open to customers

*Clockwise from top: bulk tank area; fill plant installation; first fill of the bulk tanks; customer entrance; showroom final layout.*

**S.J. Smith, Decatur**, recently opened at our new location at 3890 East L & A Industrial Drive, just two miles north of our original location on Brush College Road. Through the efforts of the S.J. Smith team, along with Weldcoa, Messer and our other vendors, we were able to move fill plants and install tanks in a timely manner. We're excited to serve our customers from our new location. Please call 217-428-4493 with any questions. Find us online at [sjsmith.com](http://sjsmith.com), or keep up with us on Facebook @SJSmithCo.

# Gases — what you need, when you need them

No matter what your current gas use is, S.J. Smith can provide what you need, including:

- Cylinder gases
- Medical gases
- Specialty gases
- Micro-bulk systems
- Laser-assist gas systems
- Cryogenic and technical services
- Onsite telemetry

Our specialty gas plant in Decatur, Ill., provides customers with the **highest quality, pure, mixed and custom-blended gases** available.

At S.J. Smith, we have four fill plants that are ready to service all your industrial gas needs, such as:

- Nitrogen
- Oxygen
- Argon
- Argon mixes
- Helium
- Carbon dioxide

**Each of our cylinders goes through a detailed quality check** before and during the fill process, where we inspect the cylinder for damage and correct labels. Also, we can also track your cylinders through our barcode system.

We can help you with:

- **Bulk and Micro-Bulk Options** - a great way to eliminate cylinder changing and handle increased gas usage.
- **Laser Gas Solutions** - S.J. Smith manufactures laser gas mixtures and certifies these to meet each laser manufacturer's requirements for purity and mixture concentrations.
- **Engineered Gas Solutions** - We'll help you to with pressure and flow requirements, and help you figure out future needs.
